

## COUNTY FARM BUREAU IN SESSION IN THE CITY

The annual meeting of the Crow Wing County Farm Bureau will be held Thursday and Friday, January 27 and 28, at the Chamber of Commerce rooms. Dinner will be served at noon in the rooms of the Chamber of Commerce.

This gathering will be one in which joint activities will be representative and is of a three-fold character. In addition to the annual meeting already mentioned there will be a conference of the county agents of the northeastern district of Minnesota. The county agents of this district and their office forces will confer at this gathering. A meeting of the farmers institute will be held at some time during the day.

The speakers at the meeting of the County Farm Bureau are: S. B. Cleland, university farm, St. Paul; County Agent Ostby of Cass County; County Agent Jacobs of Aitkin county; County Agent Skriveth of Carlton county; County Agent Gibson of St. Louis county and County Agent Roth of Crow Wing county. The speakers at the meeting of the farmers' institute as announced are, George Baker of Dakota county and L. H. Bugbee of Carlton county. The meeting of the institute will be continued through Friday.

### SUMMARY FOR 1920 OF FARM BUREAU WORK

Farm Bureau membership drive November 22, to December 5, with indications of membership of 600.

125 cooperators in Rosen rye planting 1-10 of the county with certified seed or an added increase of wealth of over \$20,000.

Three cooperators in the growing of winter wheat find successful yields. 2000 bushels of seed potatoes secured for new farmers in the county. Most of the county induced to grow one to three varieties. Eleven certified seed growers. 1100 farmers attended various meetings of different potato demonstrations. Assisted in the organization of the Pequot Farm Produce Association and the Jenkins Potato Shipping Association. Crow Wing County exhibited potatoes at three fairs 52 high grade calves shipped in from Wisconsin. Three herds started with high grade guernseys. Fifteen high grade Guernsey cows and thirteen pure bred Short Horns introduced.

89 farmers formed a wool pool association. The approximate amount of wool was 30,000 pounds. A poultry show held in connection with the county fair—270 farmers attended poultry culling demonstrations. The Farm Bureau office handled four carloads of flour and feed, 12 carloads of hay, 110 bushels alsike and timothy seed. Exchange bulletin issued monthly. Twenty-seven farmers started with farm accounts. Caretaker secured for Crow Wing station. Thirty-five farm laborers furnished throughout the year to different farmers. 30,000 pounds of dynamite brought into county to farmers at cost with a saving of \$3,600.00. Assistance rendered in the working out of income tax returns. Total attendance at farmers clubs 2149. The Daggett Brook Farmers club was organized. \$1,050.00 raised for Boys and Girls club work. Club Leader J. W. Taylor was hired for six months.

Caretaker secured for Crow Wing station.

Thirty-five farm laborers furnished throughout the year to different farmers.

### TEUTONS ASKED TO DISBAND TWO-THIRDS OF FORCE

MARSHAL FOCH AND GENERAL WILSON TO REPORT FINDING ON SITUATION

QUESTION OF REPARATION STILL UNDECIDED BY ALLIED SUPREME COUNCIL

(By United Press)

Paris, Jan. 27—As a result of today's discussion by the allied supreme council Germany is expected to disband two-thirds of her armed force within the next month.

Marshal Foch and General Wilson with other military advisors to the council, were to report today their findings on the German situation.

It was said Premiers Lloyd George and Briand had compromised in their views.

The question of reparation was still undecided today, France having demanded a total of two hundred billion marks to be paid in a thirty year period. The British view was that this is so heavy as to cripple Germany's industries and prevent her return to normal commercially.

The council decided to recognize Latvia and Estonia, former Russian states, as possessing sovereignty powers.

Lloyd George caused postponement of the morning session when he announced he could not attend. It was believed he was in session with Sir Auckland Geddes, ambassador to the United States, who returned to England last week. Today's session was to begin at 4 P. M.

Paris, Jan. 27—Settlement of German reparation narrowed down to an argument between two men, Premiers Lloyd George of Great Britain and Briand of France, today.

The two held a long conference in Lloyd George's hotel, then later being joined by Count Storza, Italian foreign minister. It was believed the two premiers might reach an agreement to be presented to the entire allied council later in the day.

### NEGRO BURNED AT STAKE IN MODENA

ALLEGED SLAYER OF PLANTER AND DAUGHTER LYNCHED BY ARKANSAS MOB

(United Press)

Modena, Ark., Jan. 27—Wm. Lowery, negro, alleged slayer of O. T. Craig, a planter, and his daughter, Mrs. C. O. Williamson, was burned at the stake here yesterday by a mob which traveled over one hundred miles to take the victim from the deputy sheriffs.

No Time for Work. "The trouble with a smart man," said Jud Tunkins, "is that he's liable to spend more time showin' off than he does workin'."—Washington Star.

### FARMERS MUST BE HEARD OR WILL BOLT OLD PARTIES

WM. ALLEN WHITE, FAMOUS KANSAS EDITOR, REVIEWS KANSAS SITUATION

FARMER HAS A GENUINE GRIEVANCE IN THE MARKET SYSTEM IN VOGUE

L. R. BLANCHARD, (United Press Staff Correspondent)

New York, Jan. 27—Middle west farmers will bolt into the nonpartisan league unless other political parties meet their demands, said Wm. Allen White, famous Kansas editor, in an interview with the United Press today.

Kansas is in the battle ground between the invading forces of the league and political organizations of the old-time parties, both of whom are striving desperately to gain control of the farmer vote and through the state of Kansas.

"The farmer has a genuine grievance," White said. "In the market system which permits low prices for produce and high prices for food. If the conservative forces of society do not meet the problem there is nothing for the farmers to do but join the league."

"I don't believe in the methods of the nonpartisan league. I feel that an organization so closely knit or under such strong domination of irresponsible leadership will not get the best results in America. I should say this even though the leadership might be composed of men of unquestionable capacity and character, for the league as it is going leans strongly to undemocratic control."

"It so happens that the present leadership of the league in the middle west is weakened by charges whether true or not, against the character and capacity of its leadership."

### RAIL MANAGERS SEEK RETURN TO PIECEWORK

CHICAGO, Jan. 27—Railroad managers are making desperate efforts to get out from under the hourly wage rate system and get back to piece work. The hourly system is one of the many hampering and costly methods fastened upon the roads while the government was in control.

Voluminous statistics were furnished by the Pennsylvania railroad tending to show that the hourly system makes for inefficiency, shiftlessness and forces the roads to send to outside repair shops large numbers of cars and locomotives that could be handled in the shops if the men were giving good service.

The figures show that from July 1, to Aug. 15, 1918, efficiency in the shops decreased 12 per cent under hourly wage system. Figures for the latter half of January, 1919 showed a decrease in efficiency in the same men of 26.7 per cent.

The hearing before the railway labor board has now been in progress three weeks and the railroads are asking the abrogation of the national agreements between the roads and their employees and a return to the piece work system.

Whitler declared that piece work be restored and a flat rate be abolished. The railroads believe if their request is granted it will not only mean a cut in wages paid employees, but will also call for greater efficiency.

The railroads claim they are not getting the proper amount of work out of their employees while they are paying "exorbitant wages."

Ask Flat Rate Rescinded Chicago, Jan. 27—The first concerted action of the roads throughout the country to obtain a decrease in wages paid employees, was taken here today by E. T. Whitler, spokesman for the railroads, before the United States railroad labor board.

Whitler declared that piece work be restored and a flat rate be abolished. The railroads believe if their request is granted it will not only mean a cut in wages paid employees, but will also call for greater efficiency.

The railroads claim they are not getting the proper amount of work out of their employees while they are paying "exorbitant wages."

Labor Committee to Meet Chicago, Jan. 27—A further development in the fight to reduce wages of railroad employees was seen today when it became known that the labor committee of the American railroad

MISS PAZ PAMINTUAN

S. degree next spring. Her father is a retired attorney from the Philippine islands where he practiced under Spanish rule.

executive committee will meet here tomorrow. It was forecast that the committee will discuss the amount of deduction in labor wages to be asked of the United States railroad labor board.

### SENATE FIGHT ON EMERGENCY TARIFF OUT IN THE OPEN

SENATOR PENROSE AND OTHER REPUBLICAN LEADERS PUSHING FOR VOTE

SENATOR HARRISON'S FILIBUSTER WITH DAY OF DEMOCRATIC MOVEMENT

L. C. MARTIN, (United Press Staff Correspondent)

Washington, Jan. 27—The senate fight over the emergency tariff bill was out in the open today and had become a question of strategy for the democratic opponents.

While Senator Penrose, of Pennsylvania, and other republican leaders were pushing for a vote, democrats were considering two courses. One was to adopt Senator Harrison's filibuster now on its eleventh day, as a party movement. The other was to add the republicans in getting a vote and then put on them the responsibility for result of the measure which its friends and foes agree will be to raise prices. The drawback to the latter course is that some democrats really favor the measure.

The tariff bill was still before the senate when that body met today as a result of Penrose's strategy in forcing a recess instead of an adjournment yesterday.

Republicans plan to keep the bill up as long as possible and Harrison was ready to continue filibustering or quit according to the wishes of the party leaders.

Peat Industry TO BE DEVELOPED

(By United Press)

St. Paul, Jan. 27—Development of the peat industry in Minnesota is recommended by Senator F. E. Putnam in a report today. An appropriation of \$25,000 is asked of the legislature to further work of investigation. Senator Putnam was named chairman of a committee by the last legislature to probe the conditions. The report declared there are six million acres of workable peat land in the state.

### AMERICAN FARM BUREAU GOING TO "MAT" WITH RYS.

ARE STIRRED UP OVER A PROVISION OF THE ESCH-CUMMINS ACT

GIVING LINES RATE OF ONE-HALF OF ONE PER CENT FOR EQUIPMENT

(By United Press)

St. Paul, Jan. 27—The American Farm Bureau federation is going to the "mat" with the railroads on the provision in the Esch-Cummins act which gives the lines a rate of one-half of one per cent for equipment, according to a communication from J. R. Howard, president of the national farm body, received here.

Repeal of that provision in the railroad act would cut approximately \$90,000,000 from the annual net rate guaranteed the roads and they still would get a rate of five and one-half per cent on their valuation.

"The farmers' share of that saving alone would run the American Farm Bureau Federation for two hundred years," said President Howard.

He declared the farmers of the country have already demonstrated their power in shaping national policies by helping to obtain from the interstate commerce commission a reduction of \$1,700,000,000 in the valuation set by the roads themselves.

The federation is going to fight for reduction of rates put into effect by the roads as a result of an interstate commerce commission emergency decision.

"I have always contended this one-half of one per cent is not fair," Mr. Howard wrote. "It ought never to have gone through and must be repealed at the earliest possible moment."

### Sand Displacements Cause Earth Tremors

(By United Press)

Philadelphia, Pa., Jan. 27—Sand displacements along the Jersey coast were believed today to have caused earth tremors felt here and for a radius of sixty miles along the Jersey coast.

This explanation was advanced in a telegram from Professor Pandorf of the Georgetown University, Washington, to Professor John A. Miller, of Swarthmore college here.

### JAPANESE SENTRY TO BE PUNISHED

Tokio, Jan. 27—Punishment of the Japanese sentry, who killed W. H. Langdon, U. S. A., will be decided by the Diet as soon as the court martial investigating the case submits its report, it was announced today.

### ALTERNATIVE TO DISARM IS MORE TERRIBLE WARFARE

WITH NO DISARMAMENT NATIONS WILL DEVELOP MORE TERRIBLE ENGINES

OF DESTRUCTION IN NAVAL WARFARE, SAYS SECRETARY OF WAR DANIELS

(By United Press)

Washington, Jan. 27—The alternative to disarm is a race among the great nations to develop new and more terrible engines of naval warfare, Secretary of the Navy Daniels said today.

"It would be the old eternal fight to get something better," Daniels said in an informal statement. "The only hope of the world to keep from spending millions of dollars each year on weapons of war is an international agreement for disarmament."

Daniels declared that all the great nations are now studying the relative value of naval fighting units in the light of experiences gained during the world war. The principal objective of that study is to determine whether breadnoughts and battle cruisers are to be replaced by air crafts and submarines.

Daniels himself has ordered such a study in the American navy. Official statements of high naval officials to the United Press declared Great Britain is willing to give up mastery of the seas for mastery of the air.

### FORD GAINS VOTES IN RECOUNT MADE

(By United Press)

Washington, Jan. 27—Counting of ballots in the case in Wayne county including Detroit, began today in the senate recount of the 1918 Michigan senatorial election in which Truman H. Newberry beat Henry Ford. When Wayne county was taken up Ford had made a gain in recount to date which had reduced the plurality of Newberry from 7,500 to 4,900. If he is to overturn the plurality he will have to gain approximately five thousand votes in the remaining 391 precincts and he has not shown any such lead of gain as yet.

### To License Grain and Other Speculators

(By United Press)

St. Paul, Jan. 27—The state senate today passed a bill providing for licensing of all speculators in grain, livestock and similar commodities, by the state railway and warehouse commission.

Each speculator would be obliged to furnish \$1,000 bond and pay a ten dollar license fee. The plan would oblige speculators to pass an examination and thus all "scalpers" would be eliminated.

The house has passed the bill and it will become a law as soon as signed by the governor.

### PROFITEERING CURBING TAKEN UP IN HOUSE

MEMBERS DECLARE WAR ON ALL GOUGERS IN PROFITEERING ON PEOPLE

MINIMUM TAX ON FORD CAR UNDER BABCOCK LAW TO BE \$12 PER YEAR

(United Press)

St. Paul, Jan. 27—Profiteering legislation was dumped into the legislative mill here today. Rep. R. A. Wilkinson, of Lake Elmo, brought forth a measure prohibiting profiteering in necessities of life and it was held over while members of the house marketing committee discussed the proposition of making it more specific.

Members declared war on all gougers in profiteering. Rep. Wilkinson's bill follows closely the measure taken against profiteering in Illinois, New York and Kansas. Rep. Howard of Minneapolis, asked Rep. Wilkinson if the measure would be legal and insisted upon an opinion from the attorney general or the house judiciary committee. Wilkinson charged it was a scheme to delay the bill and the party began to dig up bygone clashes in hot arguments. The chair called the session to order.

Railroad officials mobilized at the Capitol today to protest the bill regarding full crews on all railroad trains.

The rules committee this afternoon reported the resolution offered by Rep. Levin asking that a committee be appointed to investigate what he declared is a "movie trust" in the twin cities.

The sub-committee of the house and senate highways committee agreed today that the minimum tax under the Babcock good roads amendment should be twelve dollars a year for a Ford car. This would be the lowest tax levied on automobile owners to raise money for the ten year good roads bill program which will cost \$10,000,000 a year. The tax is in lieu of the present personal property tax by car owners in St. Paul and Duluth to be subject to an additional wheelage tax. From a minimum of twelve dollars a year on the lowest priced car the tax would amount to \$150 a year on the highest priced car, the committee agreed. Persons owning more than one car would have a smaller tax on each additional car.

### CHIEF CAMPBELL TO HOLD HIS JOB

(United Press)

St. Paul, Jan. 27—Former Commissioner O. E. Smith today announced he would not remove T. E. Campbell, chief of police.

It was the first official action and the question of his removal revolves around a scandal published locally involving the chief of police with a policeman's wife. Commissioner Smith said the woman had admitted to him she had "framed" the chief and had two deputies in her room to take Campbell into custody when he arrived there.

Commissioner Smith said his investigation convinced him it was a plot and it would not be just to take official action against the chief of police. County Attorney O'Brien said he would refuse to issue a warrant against Campbell on the information he had Chief Campbell said he would bring charges against "seven or eight persons" who were conspiring to defame his character.

### ELUSIVE IRISH PRESIDENT IN FRANCE

(By United Press)

Paris, Jan. 27—"President" DeValera of Ireland, is "somewhere in France," according to the newspaper L'Ouvre, which claims to have interviewed him.

"England's position with regard to Ireland is more difficult than ever," DeValera was quoted as saying. "Reports that Sinn Feiners have split are baseless. The whole organization is for complete independence."

## THE WEATHER

## ADVANCING AGRICULTURE

What the Department of Agriculture of the University of Minnesota Has Done For Farmers

What the Department of Agriculture of the University of Minnesota has done for agriculture was summarized by Dean R. W. Thatcher at the annual meeting of county agents and extension workers at University Farm. The Dean summed up the striking achievements of the department as follows:

Development of the School of Agriculture, demonstrating the feasibility of such schools and paving the way for passage of the Smith-Hughes bill providing for agricultural departments in high schools throughout the country.

Farmers' co-operative creamery system, which has made Minnesota the leading dairy production state in the union.

Prof. T. L. Haacker's feeding standards which have fairly revolutionized the practice of ration making for dairy cows throughout the United States.

Early farm crop breeding work which extended the area of profitable corn growing northward more than 250 miles.

Cost of production studies which a Yale university facultyman says constitute the most thoroughly scientific and well grounded studies in agricultural economics which have been produced in America.

Crop rotation systems now in general use throughout the state.

Sugar beet investigations which culminated in the establishment at Chaska of a beet factory which is now in successful operation.

Investigations which laid the foundation for the system of accrediting tuberculosis-free purebred herds of cattle now used throughout the United States.

System of potato seed certification. Development of Minnesota Nos. 3 and 1017 strawberries and No. 4 raspberry.

Cost of producing forest tree seedlings reduced to less than half by investigations at Cloquet forestry station.

Demonstration of the profitable use of phosphate fertilizers on certain well defined types of soils and the fertility of the use of other kinds, thereby preventing enormous waste in expenditures for fertilizers by Minnesota farmers.

Classification of peats into different types having different possibilities of agriculture use.

Development of farmers' co-operative selling agencies and the county farm bureau and promotion of boys' and girls' club work by the agricultural extension service.

## WITH THE FUNNY MEN

Modus Operandi.

"Smith," called the movie magnate. "Yes, sir," replied his secretary. "How much did 'Unhappily Divorced' cost us to produce?" "Approximately \$13,000." "Well, according to all the rules of the game, that entitles us to call it 'a quarter-million-dollar production.'"—Film Fun.

Innocent.

"Motion-picture directors must be a law-abiding set."

"What makes you think so?"

"Reading from the police station sets I see in motion pictures, none of them have ever been arrested."—Film Fun.

Extra for the Color.

"I am an author and I desire to spend my vacation on your farm in order to get local color. How much will the board be?"

"Twenty per week, and \$10 extra if you expect us to go around chewing straws and talking dialect."

That's Different.

Director—Did you or did you not tell the camera man yesterday that I had the biggest feet of any human being you had ever seen?

Leading Man—I did not. I merely said that if you would take your shoes off, you would be half undressed.

Overdone.

"I often wonder why Jenks is not more popular, for he's the politest man I know."

"That's just the trouble. He's so confoundedly polite he gives the impression that he wants to borrow money."

## ICE CREAM DIET

## Ice Cream or Milk Seems Great Factor in Making a Strong, Tall Race of People

It is known throughout the world what a strong, tall race of people we Americans are. Just why is it so? Why, it is due simply to the fact that we are one of the milk consuming nations. In milk are found a number of different substances, but the main and most important ones are numbers 1 and 2 of the unknown substances which make us grow. There are some nations which are known as non-milk consuming races. These are chiefly the Japanese, the Chinese, the Malays, and the people of Dutch Africa. If you have ever paid any particular attention you have found out that they are all small in stature, light in weight, and very tiny in build. That is due to the fact that they do not drink milk.

However, a great many people do not drink milk but they do eat ice cream. By eating ice cream, they obtain the amount of milk which they require. There are a lot of little children who simply cannot be forced to drink milk, but will gorge ice cream at every chance they get. This is just as well for them, if not better, because ice cream contains a great many substances that milk does not.

Recently a very prominent dairy man of Portland was blessed with a baby boy. The little fellow was sickly and very tiny at birth. Six months afterwards he weighed two pounds less than when he was born. All the baby specialists in Portland were consulted, but they all seemed to be at a loss to know just what to do. Finally, a noted specialist from the East was called in, and he also seemed to be at a loss. The father, then, in desperation suggested, "Feed the child ice cream." The doctor, then, as a last resort consented, and said to give him one teaspoonful of ice cream a day. The father did as directed, and at the end of three weeks the child had gained two pounds. Gradually the amount of ice cream was increased, until it got to be six tablespoonful of ice cream a day. Now that boy is a sturdy, large, unusually healthy child of four years.

This case received a great deal of comment among the physicians in Portland, and not long since one of the physicians came up to the father and told him of a laboring man who had an anemic baby, and he said he wanted to put him on an ice cream diet. He said that the family was too poor to afford it. This generous man, then, thanking God for the saving of his son's life, offered to send it to them free of charge. Today, this baby, too, is an unusually large child. At the present time, one baby specialist in Portland alone has over forty children on this ice cream diet.

(Excerpt from speech of Miss Jacquelyn Martin, delivered before Pacific Ice Cream Manufacturers Association at Portland, Ore., November 17th, 1920).

## Entertain Young People

Mr. and Mrs. W. A. M. Johnstone and Miss Alice entertained a number of the younger people at their home at 507 North 4th street Wednesday evening. About 30 were present and after having time afforded them in which to become more thoroughly acquainted, they spent the evening listening to musical numbers and taking part in the singing of popular songs.

Sherbet, cake and cookies were served before the guests left for their homes after a most enjoyable evening.

## Church Council

The church council of the Clara Lutheran church meets at 7:30 o'clock on Friday evening at the church.

## Evening Service

The week-evening service of the First Congregational church will be held this evening at 7:30 in the church parlor.

## STOP THAT OBSTINATE COUGH

The obstinate cough that settles in the throat, with a gathering of phlegm, is objectionable and dangerous especially for children. You can stop the cough and remove the cause of the trouble with a treatment of Glesco.

For forty years Glesco has been used in millions of American homes for the treatment of croup and cough. It will relieve croup in fifteen minutes, without vomiting. It stops the most obstinate cough by carrying the offending mucus right out of the system.

The careful mother always keeps Glesco in the home. Your druggist will tell you how many of your neighbors are using Glesco.

Sold in 50c bottles—it is worth ten times as much in time of need.

**Dr. Drake's GLESSCO**

## KRONBERG-DAVIS

## Charming Daughter of Mr. and Mrs. Erick Kronberg Married in Washington

A wedding of interest to Brainerd people is that of Miss Mae Belle Kronberg, daughter of Mr. and Mrs. Erick Kronberg of this city to Mr. Harold L. Davis of Hood River, Ore., which took place at Hoquiam, Wash., on Dec. 23, last, the ceremony being performed by the Rev. George G. Ware of the Trinity Episcopal church. The bride was born and raised in Brainerd, and is a graduate of the Brainerd high school and of the Valley City State Normal School of North Dakota, and for three years she taught school at Ironton, Minn., and a year and a half at Hoquiam, Wash. The groom is a son of Mr. and Mrs. George L. Davis, formerly of Hoquiam but now of Portland, Ore. He is a graduate of the Hoquiam high school and of the O. A. C. Oregon. He is established in a prosperous and growing fruit business in Hood River, Ore.

Many showers and dinner parties were given for the bride at Hoquiam. Mr. and Mrs. Davis took a wedding trip by automobile to Seattle and from there to Victoria and Vancouver by boat.

The many friends of the bride in Brainerd wish her happiness.

## DEERWOOD

Deerwood, Jan. 24—A house to house canvass may be made in Deerwood in order to buy a light fire truck. Village funds are not ample enough to buy the apparatus and general solicitation may be necessary to raise the money.

At the Farmers Institute meeting the plan of a cheese factory in Deerwood was broached. Farmers and dairymen seemed attracted by the idea and a canvass disclosed that the owners of 403 milk cows were willing to cooperate.

Oscar Nelson was elected president of the Hamlet & Shirt Lake telephone company at their annual meeting held in the school house of district No. 20. Carl Nelson is the secretary.

F. J. Winkquist and Ed Strombeck have returned from St. Paul where they attended a convention of mutual insurance companies.

A Farm Bureau club was organized in Deerwood with these officers: Director George Butler, Vice Director Alfred Johnson and Secretary E. Masson. The club will meet every second Saturday of the month and has been named the Deerwood-Ironton Community club.

Miss Harriet Swanson, field representative of the American Red Cross, held a meeting with officers of the local chapter. She discussed the general plan of the Red Cross and work of the county nurse.

A Parent-Teacher association has been formed in Deerwood with these officers: President Mrs. W. O. Ash, Vice President Mrs. Albert Olson, Secretary Mrs. Charles G. Osterlund, program committee Miss Rude, Mrs. B. Magoffin and Mrs. Jay McCarvill; visiting committee Mrs. Martin Ness, Mrs. C. W. Potts and Mrs. R. R. Graham.

Mr. and Mrs. H. J. Ernster are

spending two months in Los Angeles, Calif.

The case of Bay Lake Fruit Growers vs Wm. Childs was settled out of court. L. B. Kinder of Brainerd appeared for the plaintiff and H. K. Dimmick for the defendant.

Mrs. L. J. Alberts, Mrs. Nesheim, Clyde Alberts and Louis Raymond motored to Brainerd Wednesday.

Many people in the vicinity of Deerwood have taken contracts for getting out ties.

## IRONTON

Ironton, Jan. 25—The commander of the Myrin-James Post asked the village council to provide a permanent meeting place for the Post. The council decided to furnish a room in the basement of the hall for the exclusive use of the Post.

A lodge of the Junior Order of Moose has been instituted with twenty members. A campaign for new members is under way. The officers installed were: District deputy, E. J. Emery; Past Dictator, Clarence Thompson; Dictator, Carl Stang; Vice-dictator, Roy Hanson; Prelate, Loraine Ellingson; Secretary, Gust Peterson; Treasurer, Allen Jacobs. Sergeant at arms, John Ferrari. Trustees, Charles Rhodes, Lyle Miller; Inner guard, Frank Curtis.

At the annual meeting of the Firemen the following officers were elected: President, Henry Tabert; Vice-president, C. J. R. Peterson; Secretary, Charles Bourdon; Treasurer, O. C. Gorder; Chief, R. J. Clemens.

H. H. Nurick, manager of the McKay hotel in Duluth and R. L. Wirth, who has been traveling for the Corbucci Silk Company have taken over the lease of the Spalding hotel in Crosby.

A new truck to be placed on the road between St. Cloud and Brainerd has been acquired by the Range Transportation company. They have also secured the agency for this make of truck and have sold one to Martin Hill of Brainerd.

Milan Pavlica was a Brainerd visitor recently.

E. A. Lamb Jr. was in Brainerd on business last week.

E. A. Lamb has gone to California where he will spend the rest of the winter.

William Scafield has returned after a two weeks tour of the Kentucky oil fields.

Mr. and Mrs. Gust Franson entertained the Misses Brawns and Bergeron, nurses in St. Joseph's hospital and Messrs. La Victoire and Thorpe on Thursday.

## Community Council

All members of the Community Council are asked to attend the meeting Saturday afternoon at 2 o'clock in Elks hall.

## Mens Club

The Men's club of the Norwegian-Danish Lutheran church will meet on Friday evening at the home of Jens Peterson, 1019 Quince street. A cordial welcome extended.

## Condition to Be Dreaded.

There are worse things than losing money; you can get it back again; but when you go bankrupt on peace and contentment, you are of all men the most miserable.

## ALFALFA AS A REFRIGERATOR

Planted Around Farm Houses It Has Been Found to Reduce the Temperature Materially.

Refrigerators indoors are common enough, but it took the farmers in the Southwest to devise one for outdoor use.

A farmer who happened to plant a large field of alfalfa south of the farmhouse noticed during the hot summers that followed that his family did not suffer from the heat as did the neighbors. The thermometer showed a temperature five to ten degrees in his favor.

Someone suggested that it might be due to the alfalfa, tried the temperature just north of other alfalfa fields and found the same marked difference. Now the farmers of that region are planting alfalfa around their dwellings and enjoy summer temperatures that make a trip to the seashore needless, according to the Golden Age.

The cause of the coolness of winds passing over alfalfa fields is that the plant absorbs much moisture, the evaporation of which reduces the temperature of the air and lessens the summer heat in the adjoining land over which it blows.

The suggestion now is for farmers that wish to profit from the presence and the board money of summer vacationists to combine the profit and utility of alfalfa with higher rates from hot-weather boarders attracted by the coolness of the ten-acre refrigerator around the house.

Little by little men are beginning to learn how to utilize the means provided by a good Creator for their comfort and well-being.

## HE HAD LEARNED SOMETHING

Christmas Incident That Shows the Way of a Modern Maid With Her Victim.

He was a very nervous young man, but he was rather nice, and Elsie thought he was worth encouraging.

She allowed him to take her to tea, she deliberately chucked the slipper in his eye at "Hunt the Slipper," and she gave him a dance or two. Once or twice she sat down under the mistletoe, but he didn't seem to notice that.

At last when they were alone in a corner of a room, she stood long and insistently under the mistletoe hanging from a curtain pole of the bay window.

Then, very nervously, he pecked her face. She, of course, protested mildly; but as they seated themselves once more, most respectfully on a couple of

chairs, she kept the conversation on mistletoe.

At length he ventured: "It is—er—a nice Christmas custom, hanging up mistletoe, but I wonder why they always hang it over doors, windows or chandeliers?"

"Because it's not necessary to have any out-on the stairs or in any other dark places," she murmured softly.

## Ecuador.

It was one hundred years ago that Ecuador liberated itself from Spanish rule. To commemorate the anniversary, Ecuador has issued a series with nineteen denominations—one centavo to one sucre—each bearing a portrait of some man who won renown in Ecuador's history. The dates 1820 and 1920 are a part of the design. Greatly to the surprise of collectors, no 20-centavo denomination appeared as part of the set, for Ecuador's sets for forty years have included one of that value. Inquiry brought the disclosure that 62,000 copies of a 20-centavo were printed, but the value description, veinte, meaning "twenty," was through an error spelled veinte instead. The postal authorities destroyed the entire lot, and a 20-centavo will appear as soon as a new plate has been made.—Youth's Companion.

## Comment "Sarkastic."

Now the vacuum subway express has been invented. Working somewhat after the fashion of the pneumatic cash carriers that have long been in use in department stores, the trains proceed from one tunnel station to another, according to prospectus, at the rate of 150 miles an hour. This speed is attained with slight expenditure of power, because the vacuum system removes all air resistance from the front of the train and applies expanding air to the rear. The inventor presumably got his idea for the vacuum subway while traveling by tube, and noting what a small quantity of air the cars could get along with.—Christian Science Monitor.

## Czechoslovak Forests.

A novel feature of Czechoslovak forest development is the principle that the annual growth must equal or exceed the annual cut. This is a wise and far-sighted policy. It is estimated that 6,000,000 cubic meters of fire wood and 9,400,000 cubic meters of commercial timber are cut yearly. The quantity used for fuel during and since the war will be greatly reduced, in the very near future, through stimulated production of bituminous coal, lignite and oil. At the prevailing prices for lumber competent authorities estimate the value of the annual timber cut to be about \$10,000,000.

## Nyals Bedtime Cream

is locally noted for its daintiness and for its remedial efficiency in softening, smoothing, soothing rough, red, irritated and inflamed skin, to take away the chaps, to keep the hands, lips, face and all exposed skin in good condition. It is excellent for gentlemen after shaving, removing the irritation of a dull blade against a tough beard. It is extremely dainty in its character and its odor.

## Beautifies During Repose

Nyal's Bedtime Cream is a cream that can be applied at night on retiring and if thoroughly rubbed in will not soil the bed clothes and in the morning provide the skin soft in texture, dainty in appearance and feel. This cream is highly recommended to all ladies desiring the extreme in toilet beautification. By all means try it.

## A MAN'S WORK

(Stevenson)

To be honest, to be kind; to earn a little and to spend a little less, to make upon the whole a family happier for his presence; to renounce when that shall be necessary and not to be embittered; to keep a few friends, but these without capitulation; above all, on the same grim condition, to keep friends with himself, here is a task for all that man has of fortitude and delicacy.

## WHO OWNS THE SNOW?

Brainerd has its arguments about the water meters. In Minneapolis the subject engrossing the attention of council and people at large is who owns the snow on the street car tracks, the city or the company.

One side maintains the snow on the car tracks continues company-owned snow even when pushed off the tracks on to the sidewalks.

Alderman Walquist contended that snow pushed from the car tracks becomes the ward's snow in view of a working plan whereby the street car company pays for a third of the cost of removing it from the streets, while the ward funds pay for the remaining two-thirds.

In Brainerd there is so little snow that nobody has an argument about "the beautiful."

## CAPITAL PUNISHMENT

Shall the state return to capital punishment or shall it continue with capital punishment abolished?

In a talk on the proposed bill to reinstate capital punishment in Minnesota, Charles E. Vasaly of Little Falls, superintendent of the St. Cloud reformatory, said inaugurating capital punishment was a relapse to barbarism and a disgrace.

Mr. Vasaly said that if capital punishment is a good thing as a crime deterrent, then it should be inflicted at the public library or in the public square or in the high schools where an impression of the terror of it could be made upon the youth.

A true key to the solution is strict enforcement of the laws we now have, and less pardoning.

## MAYBE THE SPIRITS GOT HIM

(By United Press)

San Francisco, Jan. 27.—Armed with a copy of the "Hymns of the Heart," Mrs. Chas. A. Wheatley started looking for her husband today. She also wanted to find the woman whose writing appeared on the leaves of the hymnal. Her husband is a lecturer in the Spiritual church.

Sunday morning a woman sitting near to her handed her a hymn book. "How much will you take for your husband," was written on one leaf. "He is not for sale," Mrs. Wheatley wrote and handed back the book. Mr. Wheatley at the moment was occupying the pulpit.

Yesterday Mrs. Wheatley reported to police she had received a message from her husband saying he would not return and thus far he has kept his word.

## 2 Minnesotans Drown In River; Three Escape

La Crosse, Wis., Jan. 27.—Two men were drowned in the Mississippi river here when an automobile in which five Brownsville, Minn., men were riding broke through the ice. Those drowned are A. E. Cox and James Enos, Oscar Darling, George Collier and Percy Kniddle, other occupants of the car, escaped. After the car had settled in 12 feet of water, the three survivors managed to loosen the curtains and make their way to the surface.

## FIREWOOD MAKES GOOD CASH CROP

Farmer Can Make His Farm Pay Substantial Profits by Producing Fuel.

## USEFULNESS OF MACHINERY

Modern Apparatus Not Only Cuts Wood and Standing Trees, but Is Used for Various Other Purposes About the Farm.

(Prepared by the United States Department of Agriculture.)

The farmer's problems appear, all of a sudden, to have become the leading national problem. Congress is talking of little else than legislation aimed to help the agricultural interests. The bankers are busy explaining why they can't lend the farmer the cash he needs. The plight of the farmer is the chief topic of discussion in railroad circles and among business men at all the big markets. Farmers themselves are organizing everywhere to force the prices of their products up to a point where selling will not mean a loss to them.

Meanwhile what the individual farmer needs is not talk, but cash. Certain things he must buy right along for himself and his family. He can't wait for the national debate to run down.

In this situation farmers who are hard pressed for cash may be overlooking the fact that all around them "money is growing on the trees," and the crop is just waiting to be picked. This is almost literally true. In other words the farmer can harvest another crop—his timber. All over the country thousands of farmers are turning to this immediate source of

Modern Machinery Reduces Hand Labor in Felling the Woodshed.

cash. In money value, firewood ranks as America's sixth crop. Government statistics show rank of crops in this order: Wheat, corn, cotton, hay, oats, firewood.

## Money in Producing Fuel.

With one of the practical, low-priced power log saws now on the market, the farmer can make his farm pay substantial profits by producing fuel—a commodity that has held up well in price and for which there is an almost unlimited demand. Then, too, there is always a steady market for ties, fence posts and timbers that can easily and quickly be cut with these lightweight, portable machines. In this way the farmer, with little work or expenses, can realize good profits and still hang on to his grain and live stock if he wants to, until prices get better.

On nearly every farm in most sections of the country there is timber in more than sufficient quantities for home use. There are live trees that need to be taken out to give room for younger ones to grow, or to clear the land for cultivation; there are dead trees that are allowed to decay; and on thousands of farms, the banks of rivers and creeks are lined with great logs and other drift wood.

For many years the farmer has been interested in, and has readily accepted, machinery that would save him time, labor and money. Now he is seizing upon a machine that actually makes money for him—as well as saving him time and labor. Those who have used the 1921 improved model log saws say these machines come near to being perfect sawing outfits. They do the work of ten to fifteen able-bodied men—cut down trees and saw up logs and branches of any size—at an average cost of about 1 1/2 cents a cord. Cutting 35 cords of wood is an easy day's work, and it is possible to cut as much as 50 cords in that time.

## Machine Cuts Standing Trees.

One of the most popular log saws makes over 300 strokes a minute, and its engine pulls over four horsepower. This particular machine cuts down standing trees, too. By attaching this clever device, trees can be cut down with the level of the ground, so there will be no stump, or higher up, as desired. By attaching a circular saw the outfit is quickly turned into a buzz saw, which rapidly zips up limbs and branches, those parts of the tree which usually go to waste, yet which produce fully one-third of the wood.

## HOME TOWN HELPS

DISTINCTIVE SIGN FOR TOWN

Idea That Is Attaining Popularity in England Is Worth Consideration in Our Own Land.

They are endeavoring in England to make a fashion in village signs—what a good notion to borrow! It has been urged that for the unlovely notice at the entrance to a town, reading, "Fairfield. No 'cut-outs,'" there be substituted a sign such as villages and the visitors to them enjoyed in the old days; a design, boldly executed and colored, which should call to mind some historical or industrial association with the place, or some suggestion inherent in the name itself and which would come in time to be known as the symbol of the town. The London Daily Mail thought the idea so good that it opened a competition to designers of village signs. The first prize was \$5,000 and has gone to a man who made a sign for the village of St. Peter's-in-Thames—the English have literally picturesque names on their map, but some of our own Indian words would offer the artist as rich an opportunity, and think, too, what he could do for Concord and Lexington, for Deerfield and Tarrytown. Several of the English villages have already responded with the offer to buy the designs submitted in this particular competition and have them executed and set up. In addition automobilists have declared their desire to contribute toward the expenses in some cases, for they say that though they live in the city, they would have much pleasure from these signs. At this point, however, the village will be wisest to refuse. The town may go where it will for the artist, but the sign must be its own, no gift to it from an outsider—better take five years to get it and have it real, than obtain it quickly and artificially. The village sign is no fashion to sweep the countryside wholesale, but what an admirable one to set going and let grow steadily!—The Villager.

Ceylon Land of Cinnamon.

Although cinnamon is produced in various parts of the tropics, the best quality is produced in Ceylon, according to an article in the World Salesman. Owing to its peculiar climatic conditions, Ceylon is particularly adapted to the growing of the cinnamon tree, which requires an annual rainfall of 85 to 100 inches and an average temperature of 85 degrees. The tree has a very long life and has often been known to obtain the height of 40 feet.

## Just Go Ahead and Do It.

The present is always a good time to put into effect that contemplated plan of improving the home grounds.

## Another Discoverer.

In an old Spanish geographical work on America published in 1552 by Francisco Lopez de Gomara, a priest of Sevilla, it is mentioned that Labrador was reached for the first time by a party of Norwegian sailors piloted by John Scolvus or Jon Skolp in 1476. The announcement was made for the first time some years ago, but it was greeted with skepticism that Columbus had been anticipated on the American shores by any but Leif Ericson, but recently additional evidence has shown that Columbus' visit to this country was antedated by Scolvus by 20 years and steps are being taken to urge the former's claims for honors.

## Pecks of Diamonds.

During the year 1919 South Africa exported 1,124 pounds of diamonds. This quantity represented just about 125 quarts.

This vast quantity of precious stones reduced to terms of bushels would equal a trifle less than four, or what would be two ordinary grain bags full of them. Naturally the stones included a great number of very large ones as well as many medium-sized and small ones.—Philadelphia Ledger.

## Shaft for Hero Dead.

An obelisk of granite seventy feet high is to be erected in Denmark as a memorial to the many thousands of American and allied soldiers of Danish descent who died in the World war. It has been estimated that about 30,000 men of Danish blood fought in the American armies in France and that about 20,000 Danes fought in the Canadian, Australian, British and French armies.

## Imagination Needs Right Rein.

Without imagination you would be like a stove without a fire. But do not let the fire get the better of you. Imagination is like fire; it is a blessing, if controlled, but a curse, if uncontrolled.

## Chiropractic for Tonsilitis

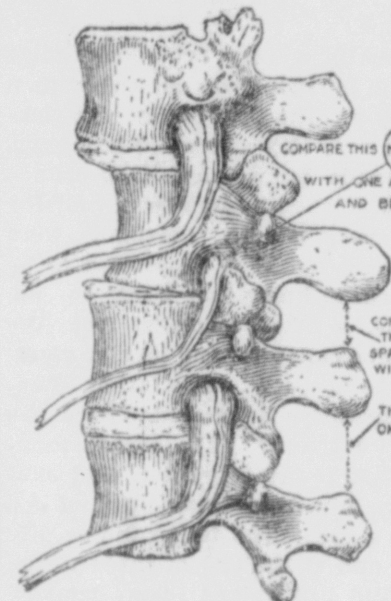

If you are suffering from an attack of tonsilitis, the best thing for you to do is to call upon your Chiropractor and have him adjust the cause. It is much better to keep these much abused little organs healthy than to deprive your body of something that an All Wise Creator knew was essential to your needs. The Chiropractor cannot make Healing Force, but he can adjust subluxated Vertebrae and let it in these diseased tonsils.

## Quick Way to End Stomach Trouble

Simple, Inexpensive "Marlix" Works Wonders for Stomach Sufferers

You can now quickly end your suffering from headaches, gas, belching, bloating, sour acid stomach, nausea, loss of appetite, heartburn, heart palpitation, nervousness and other symptoms of indigestion and dyspepsia.

Just read what these reliable people say:—Mrs. Jane Curran, Dola, W. Va., writes, "I suffered with stomach trouble for twenty years and could not even drink cold water without it making me sick. I took two bottles of Marlix and now can drink and eat anything."

Mr. Robert Thompson, Rising, Sun, Ind., writes:—"I feel just like since I took Marlix. I can eat anything now and have no misery whatever to suffer. I am 73 years of age."

Satisfy yourself that there is one way to quickly stop the stomach misery you've been enduring. Just get a bottle of concentrated liquid MARLIX and use it as directed. You get relief at once. You'll get back your appetite and enjoy eating. Never mind how long you have suffered or what you have tried, MARLIX is guaranteed to give satisfactory results or money refunded; that's how sure it is. So get a bottle today, it only costs 75 cents and if your druggist cannot supply you, send price to The Marlix Co., Port Wayne, Ind., and you will receive it promptly by return mail.

This "Anuric" is put up in tablet form, and can be obtained at almost any drug store. For that backache, lumbago, rheumatism, "rusty" joints, swollen feet or hands, due to uric acid in the blood, "Anuric" quickly dissolves the uric acid. It was discovered by Dr. Pierce of Buffalo, N. Y. Send him 10c for trial pkg.

You can get it in Brainerd at H. P. Dunn.

## FARMERS FROM ALL PARTS OF COUNTY

Farmers from all parts of Crow Wing county are in the city today to attend the meeting in which the State Farmers' Institute and County Farm Bureau are co-operating.

This meeting of the farmers is one of unusual interest because of the growing importance of farmers organizations, the desire of the farmers to secure for themselves what they consider a just reward for their labors and their increased endeavor to get together to seek information that will make them more efficient farmers and to discuss plans whereby some of their desires for a re-adjusted method of distribution may be brought to realization.

At the morning meeting of January 27 addresses were given by George Baker of Dakota county on "Farm Bureau Activities in Southern Minnesota" and L. B. Bugbee who spoke on "The Farm Bureau and Out Over Regions."

After the two speeches of the morning and the discussions they provoked dinner was served in the rooms of the Chamber of Commerce. During the time devoted to the dinner Miss Alice Georgia Drexler accompanied on the piano by Miss Alice Regina Johnson gave some charming selections on the violin which were very much appreciated by those present.

The afternoon meeting was opened by the President of the County Farm Bureau, J. W. Fitzpatrick, who outlined the work for the afternoon.

The President's address was followed by reports from the following: County Agent E. G. Roth; Secretary D. H. Fullerton; Director Bert Sabia of Mission on the State work of the farm bureau, and by the directors of the different townships.

The constitution and bylaws of the County Farm Bureau were taken up and discussed. After disposing of the suggestions on the bylaws S. B. Cleland, assistant county agent leader, gave a talk on the farm bureau.

The township directors of the various township units met in separate session during the afternoon to elect officers and work out a program of work for the ensuing year.

A district county agents' convention was held from 4 o'clock until 6 o'clock in which the following county agents and their assistants participated: M. P. Ostby, Cass county; A. W. Jacobs, Aitkin county; C. J. Skriveth, Carlton county; E. G. Roth, Crow Wing county; A. P. Gibson, South St. Louis county; and S. B. Cleland, assistant county agent leader. County agents' work and co-operation between the county agents, together with the systematizing of their work were among the matters given consideration.

During the morning, township committee men came in by every road and on every train and at noon about 200 farmers had gathered for their important meeting.

The meeting of the institute will be continued through Friday and an interesting program, which is so arranged that anything of special importance to the farmers of this section may be introduced, has been arranged.

The general outline of the program which is in charge of two thoroughly able speakers who are qualified to deal with the problems of the farmers is as follows:

George Baker who is in charge of the institute will speak on "Livestock", dealing with it in all its various phases, kindred subjects will be discussed and special emphasis will be laid upon the value of the silo to the farmer who gives his time to raising livestock.

L. B. Bugbee will give instruction on the raising of crops, with particular reference to the crops which are raised in this section of the state. Mr. Bugbee is a specialist in dairy produce and will treat this important subject.

Friday's meetings begin at 10 o'clock in the morning and at 1:30 o'clock in the afternoon.

### BARACA BANQUET

Preparations Well Under Way, to be Given on Friday Evening, January 28th

Arrangements for the "Baraca Banquet" to be given by the Baraca class of the First Baptist church Bible school are well under way. The program of music and talk will be the best ever.

The class is fortunate in securing the Rev. Norman B. Henderson of the University Baptist church, Minneapolis for the speaker of the evening; a man of fame and force in his messages to men.

All Baraca members and men of the church and congregation should be on hand Friday evening at 6:30 o'clock. The tastiest menu is to be prepared by the Alpha class ladies and is enough enticement for men's palates. It's to be some banquet. Be on hand and on time.

### CONTEST GETTING INSURANCE

D. D. Schrader of Brainerd District and Lloyd Wooders of Red Wing

D. D. Schrader, representative of the Mutual Life Insurance Co. in the Brainerd district has been challenged to secure as much business during the month of February as Lloyd Wooders of the agency of the Red Wing district.

The local agent has accepted the challenge and his competitor is promised a fair and strong race if he pulls down the laurels.

During the month of December 1920 the Red Wing agency wrote \$84,000 worth of insurance while the Brainerd agency was writing \$89,000 worth.

All Mr. Schrader needs to do is travel at his December pace.

☞ We will place a private room at your disposal, assist in drawing up the necessary papers and make our services useful in every possible way.

☞ Whether you are a customer or not, you are welcome to transact your conveyancing business here.

**Brainerd State Bank**  
"Brainerd Minnesota"

## Sheetings, Sheets and Cases

### At lowest prices in several years

We have not given our regular January sale of sheetings and sheets and cases for several years because of the prevailing prices. We have the new sheetings at the prices which are prevalent today and which promise not to be lowered in months.

We advise you to buy with confidence as we do not believe that prices will drop further, at least to any material extent, for months to come. These are especially priced for this event.

### Muslins and Sheetings

After Feb. 1 at Front & South 7th St.

### DOES IT PAY TO WORRY ABOUT APPENDICITIS

Can appendicitis be guarded against? Yes, by preventing intestinal infection. The intestinal antiseptic, Adler-i-ka, acts on BOTH upper and lower bowel removing all foul, decaying matter which might start infection. EXCELLENT for gas on stomach or chronic constipation. It removes matter which you never thought was in your system and which nothing else can dislodge. One man reports it is unbelievable the awful impurities Adler-i-ka brought out. Johnson's Pharmacy.

### No Tips in China.

The Chinese are not accustomed to tipping the barber. As a matter of fact the Chinese barber is very modest in his prices, and his patrons can obtain a haircut, a head shave, a face shave, and in addition have the shoulders and back massaged, all for less than five cents. The razor used by Chinese barbers is a triangular-shaped blade with straight handle, folding up as does the American straight razor. The blades are made from old rails or any other crude steel which has outlived its usefulness for other purposes.

## BERGDOLL FOUND IN GERMANY; CAPTURE ATTEMPT THWARTED

### AMERICAN DRAFT EVADER, TRAPPED BY AUTO, ESCAPES WHEN POLICE APPEAR

Berlin, Jan. 27.—An attempt was recently made at Ebersbach to kidnap Grovern Cleveland Bergdoll, American draft evader, and a companion named Stecher by five men in an automobile, two of whom were American military officers and one an American sergeant according to the Ebersbacher Zeitung.

Bergdoll was being driven to the Ebersbach railway station to meet wedding guests when the automobile was surrounded and its occupants ordered to surrender. The party attempted to escape and one of the Americans fired, the newspaper says, wounding a German friend of Bergdoll in the right hand.

Police officers appeared and the five men fled but the two alleged intelligence officers and another of the men were arrested later.

### TWO JAILED FOR TRIPLE ALPS MURDER

Geneva, Jan. 27.—Two brothers, Valle and Marcello Amato, and their uncle, Joseph Sassin, residents of Gignod near St. Bernard hospice, have been arrested charged with murdering three Italian Alpinists. The sound of shots was heard by the monks, and, guided by dogs, they found the bodies of the murdered men. Investigation showed the bodies had been robbed.

### PULLMAN CAR CO. REPAIR SHOP FIRE

(By United Press)  
Chicago, Jan. 27.—Authorities today investigated the fire which destroyed the repair shop of the Pullman Car company here. The damage was estimated at \$250,000. Dissension among employees of the plant over wage reductions will be investigated in an effort to place the responsibility for the fire, officials declared.

### MEXICO TO HAVE ANOTHER CHANCE

(United Press)  
Palm Beach, Fla., Jan. 27.—Mexico will be given another chance to be good by the Harding administration, according to well informed sources close to the president-elect here today. A general policy based on this principle is expected to result from conferences being held on the household "Victoria," between President-elect Harding and Senator Albert B. Fall of New Mexico, and Henry P. Fletcher, former ambassador to Mexico.

### MEXICO AWAITS NEWS OF ARIETAS

(By United Press)  
Mexico City, Jan. 27.—Mexican officials expect a report today from the military expedition sent to suppress an outbreak by the twelve Arietas brothers in Durango. Last reports said the Arietas were leading an attack on a mining camp at Tepehuanes, where a number of Americans were located. Additional troops were prepared to follow the first expedition if reports should be unfavorable.

### HALF MILLION ROBBER HELD AT BAY

(By United Press)  
Chicago, Jan. 27.—Five police with drawn revolvers here early today held at bay and captured James Shupe, whom police have sought in connection with the \$500,000 union station mail robbery.

### INFANCY BILL IS REPORTED TO HOUSE

Washington, Jan. 27.—The Shepard-Towner bill, for protection of maternity and infancy, recently passed by the senate, was reported out by the house interstate commerce committee, after an all day session.

### TRY TO ARBITRATE THEIR DIFFICULTIES

(By United Press)  
Winona, Jan. 27.—H. W. Lathworth, executive clerk of the Minnesota state board of arbitration, is attempting to settle controversies between the Interstate Packing company and employees.

### COUNTY FARM BUREAU IN SESSION IN CITY

(Continued from Page 1)

summed up in a suggested program of work as follows.

Working out the needs of each township at the different unit meetings and cooperating with the officers and committee men of these units in carrying out township programs of work.

Assisting the local units in every way possible to carry out their programs, the uniting of the interests of several or all of the township units in projects of common interest to all, such as land clearing by the increased use of dynamite, holding a brush clearing week, land clearing demonstrations, the increase of more and better stock especially sires, to increase the growing of higher yielding grains and corn, to foster the increased use of silos, to develop and standardize the potato industry further by adhering to two or three tried varieties such as the Green Mountain, Early Ohio and Russet Burbank, by use of Bordeaux spray and seed treating methods and to increase the growing of certified seed.

To further assist in providing better markets for all farm products, the organization of a seed exchange whereby clover and timothy seeds may be cleaned, advertised and sold.

To try and make possible the extended use of Boys and Girls club work and to extend that branch of agricultural development.

To keep up and increase the benefits and services of the Wool Growers Association.

To extend and enlarge the dairy industry by assisting in securing better stock and markets.

To assist in every way possible in beautifying the farm home in making it more attractive.

To work out methods and give instructions by which the burdens of the house wife may be relieved by modern conveniences and labor saving devices.

To extend the Farm Bureau to every corner of the county and to render all service possible in the farming development of the county and making conditions for the farmer such that he may receive a reasonable profit for his labor and money investment and at the same time give him the opportunities to enjoy those things that make life worth the living—happiness, contentment and prosperity.

### 596 MEN FOR EACH ILLINOIS JOB

(United Press)  
Chicago, Jan. 27.—There are 596 unemployed men for every job available, it was announced today by the Illinois free employment bureau. Unemployment has increased three hundred per cent in the last four months," it was said.

### GILBERT TO BEGIN JAIL SENTENCE FEB. 5

Red Wing, Minn., Jan. 27.—The United States supreme court mandate affirming the conviction of Joseph Gilbert, former Nonpartisan league organizer, for violation of the Minnesota sedition act, was filed in the district court here Wednesday. It is understood that through an arrangement with the authorities, Gilbert will give himself up here Feb. 5, to start serving the sentence of one year in the county jail and a fine of \$500, which was fixed upon his conviction in Goodhue district court in May, 1918.

### CANADIAN FREIGHT RULES RESCINDED

(United Press)  
St. Paul, Jan. 27.—Rules of the Canadian freight association that all shipments from the United States to Canada should be prepaid, were rescinded today. The rule was inaugurated during the early part of the war and has resulted in considerable inconvenience for shippers.

### THE WOODS

BY DOUGLAS MALLOCH

BROTHERS AND SONS.

ON a dirty floor at a slinky bar in the anteroom of hell I have seen them stand with a devil's leer, I have heard the tales they tell—

I have heard them brag of the brutish things, I have heard them boast of shame,

THI I longed again for the Jewish God, for the God who smote with flame,

And I wondered much if there lingered still not a dream of boyhood land, Not a tender thought of a mother's kiss or a touch of sister's hand,

For we wander far, and the years go by, and the boyhood vision fades, Yet we are the sons of the mothers of men and brother to all the maids,

And it is not there in the wild alone that the souls of men forget; In the house of pride, on the polished stair, where the gilded ones are met,

I have heard the tale that is often told on the dirty bar-room floor While the idle smiled, and the lounge laughed, and the bestial asked for more,

For the thing we are is the thing we are, not the thing in garments new; And the coat that fits is the tailor's coat, but the man inside is you,

It is such as I, it is such as you, that have made the jests and jades— Yet we are the sons of the mothers of men and brother to all the maids,

Yea, the sons we are of a motherhood, of a mother-love, divine, And I can not slander this mother yours—if I do I slander mine;

Yea, the brothers we are of a sisterhood

## NEW LYCEUM TODAY ONLY

of the sisters loved or loathed, And you can not slender the least and say that the world shall spare your own.

For a woman's name and a woman's fame they are sweet, and frail, as flowers;

But the strength to shield and the arm to wield for the woman's name are ours,

Let the God-made man keep his God-made trust till his life's last twilight fades—

For we are the sons of the mothers of men and brother to all the maids,

(Copyright)  
Decorated Boxes.

Decorated boxes can be put to various uses. Take tin boxes of various shapes and enamel inside and out. Cut out colored paper decorations or use cretonne and glue it on the box. If paper is used, the boxes should be varnished.

### The Same Sunon.

At a recital in one of the churches little Joe played a piece and carried a bouquet to one of the little girls who played. Later, another bouquet was sent to one of the players and Joe piped out, "Why, that's the same bunch of flowers that I took up."

"Gentlemen," said the speaker, "I can't sit still without saying a word, and so I rise. I will speak what lies close to my heart. Everybody debates the future of the country. Buildings are erected for posterity. Everything that is done, built, planted, is simply for the benefit of posterity. Now what in heaven's name has posterity done for us?"

Live close to Nature

### BULGARIAN BLOOD TEA

Is Nature's purest herbs. Take it hot to kill colds, flush the kidneys, sweeten the stomach and purify the blood. Sold by druggists and grocers everywhere.

## What's the best Title to this Goodrich Picture?

Forty different money prizes ranging from \$250 to \$10—costs you nothing to submit a title.

Contest runs from January 1st to April 1st. Send your suggestion to the B. F. Goodrich Rubber Company in either New York, Boston, Chicago, Kansas City, Seattle, Denver or Akron—and when next you buy rubber boots or shoes insist on the kind with the Red Line 'Round the Top.

## Advertisers in the Daily Dispatch

Now get the same cut service as the big city dailies.

We have made arrangements with the Murray Illustrated Advertising Company of New York, for the furnishing of cuts for advertising purposes absolutely free to our patrons. This service is the best in America and has as clients some of the largest newspapers published.

Never before has it been possible for a paper to furnish this service without a considerable added outlay on the part of the advertiser, and even now it is only offered to the paper recognized by advertisers and readers as the leader in its section.

The Dispatch buys the cuts; the advertiser pays for the space in the paper at the same rate as for other advertising. Many of our patrons have already taken advantage of this offer and others are invited to do so.

We will be glad to explain the matter more fully
